NOTE 37 C.F.R. 1.044:

- (1) Each U.S. patent listed in an information disclosure statement must be identified by inventor, patent number, and issue date.
- (2) Each U.S. patent application publication listed in an information disclosure statement shall be identified by applicant, patent application publication number, and publication date.
- (3) Each U.S. application listed in an information disclosure statement must be identified by the inventor, application number, and filing date.
- (4) Each foreign patent or published foreign patent application listed in an information disclosure statement must be identified by the country or patent office which issued the patent or published the application, an appropriate document number, and the publication date indicated on the patent or published application.
- (5) Each publication listed in an information disclosure statement must be identified by publisher, author (if any), title, relevant pages of the publication, date, and place of publication.

WARNING: No extension of time can be had under 37 C.F.R. § 1.133 (c) or (d) for filing an IDS. 37 C.F.R. § 1.07(a).

NOTE: The filing date of a national application under 37 C.F.R. § 1.07(a) has two possible meanings. When the filing is a direct one to the United States Patent & Trademark Office, the filing is defined in 37 C.F.R. § 1.55(a) as the date on which (1) A specification containing a description pursuant to § 1.71 and a claim or claims pursuant to § 1.74; and (2) any drawing required by § 1.01(a), are filed in the Patent and Trademark Office in the name of the actual inventor or inventors as required by § 1.41. 37 C.F.R. § 1.07(a)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 35 U.S.C. § 371(a) within the period set forth in § 1.404 or § 1.401. 35 U.S.C. § 371(a) requires the filing of the following: (1) the basic national fee; (2) a copy of the international application, unless already sent by the International Bureau, and especially in English translation if filed in another language; and, also especially (3) amendments under PCT Article 19, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any claims in the international preliminary examination report, if such claims were made in another language. The special fees must be submitted later, with a check. 37 C.F.R. § 1.07(a)(2).

IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. § 1.07(b).

NOTE: "No extension of time is due when the filing is made within the above time period. It is considered to occur that no Office action has been mailed if the disclosure statement is delayed until after three months from filing."

NOTE: "An information disclosure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a properly executed certificate of mailing under 37 C.F.R. 1.1, or Express Mail certificate under 37 C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1992 (1130 O.G. 37-41, 35). See also § 602, M.P.E.P., 6th Edition.

NOTE: "The term 'national application' includes continuing applications (continuations, divisions, continuations-in-part) so three-months will be measured from the actual filing date of an application as opposed [sic] to the effective date of a continuing application." Notice of April 20, 1992 (1130 O.G. 37-41, 35).

(Transmitted of Information Disclosure Statement Within Three Months of Filing or Before Mailing of First Office Action [B-7]—page 2 of 3)

NOTE: "An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (37 C.F.R. 1.143) or just a requirement for additional fees to have a claim considered (37 C.F.R. 1.16(c)). Thus, if an application was filed on Jan. 1 and the first Office action on the merits was not mailed until six months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1992 (1138 O.G. 37-41, 38).

WARNING: "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. § 1.87 provides adequate recourse for the timely submission of prior art for consideration by the examiner." Notice of July 6, 1992 (1141 O.G. 63). But see § 103(b) and (c), limited suspension of action in a continued prosecution application (CPA) filed under § 1.53(c) and in a request for continued examination (RCE) under § 1.114.
